GitHub LinkedIn LeetCode

Professional Summary

Final-year Computer Engineering student with strong knowledge of Java, Data Structures, Algorithms, and MERN stack development. Experienced in building scalable full-stack web applications, integrating REST APIs, and developing responsive user interfaces using React.js and Tailwind CSS. Passionate about solving real-world problems through technology and continuously learning modern software development practices. Skilled in both frontend and backend development with a strong understanding of database management, authentication systems, and API handling.

Education

Sharad Institute of Technology, College of Engineering
B.Tech in Computer Science *CGPA: 7.8*

2022 – 2026

- Studying core computer science subjects including Data Structures, Algorithms, Database Management Systems, Operating Systems, and Web Technologies.

Technical Skills

- Languages:** Java, JavaScript, Python (Basic)
- Frontend:** React.js, HTML, CSS, Tailwind CSS, Bootstrap
- Backend:** Node.js, Express.js
- Database:** MongoDB
- Tools:** Git, GitHub, Postman, VS Code
- Core Concepts:** Data Structures and Algorithms, REST APIs, Authentication, CRUD Operations

Projects

NewsExpress – News Web Application (Live) — GitHub

- Developed a responsive news web application using React.js and integrated external News API for real-time news updates.
- Implemented category-based filtering including sports, business, entertainment, and technology news.
- Deployed the application on Vercel for scalability and live accessibility.

PassOP – Password Manager — GitHub

- Built a React-based password manager with CRUD functionality for securely managing credentials.
- Implemented password strength checker, clipboard copy feature, and responsive UI design.

SmartBlog Hub – AI Blogging Platform (Live)

- Built a full-stack AI blogging platform using MERN stack and OpenAI API integration.
- Implemented authentication, admin moderation panel, and comment management system.
- Developed scalable backend APIs and responsive frontend interfaces for better user experience.

Experience

Tecspeak IT Solutions

July 2024

Trainee Web Developer (Certificate)

- Developed responsive web pages using HTML and CSS.
- Improved understanding of frontend development concepts and responsive web design principles.

Spcl Infotech Services Private Limited

Present

Trainee Web Developer (Certificate)

- Developed scalable and responsive web applications using MERN stack technologies.
- Built modern user interfaces using React.js, Tailwind CSS, and reusable component-based architecture.
- Integrated REST APIs and implemented CRUD operations for efficient data management.
- Collaborated with team members on frontend and backend development tasks in real-world projects.
- Worked on improving application performance, debugging issues, and optimizing user experience.
- Gained practical industry experience in full-stack development, version control, and deployment workflows.

Achievements

- Solved 300+ problems on LeetCode.
- Earned **AWS Academy Cloud Foundations Certification**, gaining fundamental knowledge of cloud computing and AWS services (View Certificate).
- Developed multiple full-stack projects using MERN stack technologies and deployed applications using Vercel.
